## 1. Educational history

- 2012.3 B.A. in Economics, University of Tokyo  
2014.7 M.A. in Economics, London School of Economics and Political Science  
2021.7 Ph.D. in Economics, London School of Economics and Political Science

---

## 2. Working & research experience

- 2021.08 Assistant Professor, Graduate School of Economics, Hitotsubashi University

---

## 3. Teaching at Hitotsubashi

### A. Lectures

#### (a) Undergraduate program

Introductory Microeconomics

#### (b) Graduate program

International Development Economics

### B. Seminars

Special Seminar

### C. Messages to students

My lectures and seminars focus on both economic theories and empirical methods used in modern economics. I expose students to the recent developments in economics by reading and presenting academic papers and replicating their empirical analyses. I aim to maintain an open and friendly atmosphere in classrooms and encourage students to engage actively in discussions and express themselves freely in English.

---

## 4. Major research themes

My field of expertise is public finance and development economics. Currently I work on topics related to tax evasion and other tax enforcement problems in developing countries.

---

## 5. Research activity

### B. Recent research activity

#### (a) Presentation at academic association meetings (add \* to keynote speeches and invited speeches)

"Does Consumer Monitoring Reduce Corporate Tax Evasion Along the Supply Chain? Evidence from Mongolia,"  
SWET, August 11, 2020.

- \* "Does Consumer Monitoring Reduce Corporate Tax Evasion Along the Supply Chain? Evidence from Mongolia," Kobe-DEEH, August 27, 2020.
- \* "Does Consumer Monitoring Reduce Corporate Tax Evasion Along the Supply Chain? Evidence from Mongolia," GRIPS, Jun 9, 2021.
- \* "Does Consumer Monitoring Reduce Corporate Tax Evasion Along the Supply Chain? Evidence from Mongolia," Hitotsubashi Summer Institute (International Trade & FDI), August 21, 2021.
- \* "Does Consumer Monitoring Reduce Corporate Tax Evasion Along the Supply Chain? Evidence from Mongolia," OSIPP-Economics Lunchtime Seminar, Osaka University, November 24, 2021.
